Display the terms of a Fibonacci series. Compute the greatest common divisor and least common multiple of two integers. Count and display the number of vowels, consonants, uppercase, lowercase characters in string. Input a string and determine whether it is a palindrome or not; convert the case of characters in a string. Find the largest / smallest number in a list / tuple. Input a list of numbers and swap elements at the even location with the elements at the odd location. Input a list of numbers and find the smallest and largest number from the list. February Find the largest / smallest number, name and marks of 'n 'students in a class and display the names of students who have scored above 75 AnNUAL EXAMINATION SYLLABUS (JUNE - FEBRUARY) To Communication Skills III Computer Organisation Self Management Skill III June, July, August Practical File Networking And Internet Networking And Internet		Generate the different patterns using nested loop.		
October, November Input a number and check if the number is a prime or a composite number. Display the terms of a Fibonacci series. Compute the greatest common divisor and least common multiple of two integers. Count and display the number of vowels, consonants, uppercase, lowercase characters in string. Input a string and determine whether it is a palindrome or not; convert the case of characters in a string. Input a string and determine whether it is a palindrome or not; convert the case of characters in a string. Find the largest / smallest number in a list / tuple. Input a list of numbers and swap elements at the even location with the elements at the odd location. Input a list of numbers and find the smallest and largest number from the list. Create a dictionary with the roll number, name and marks of 'n ' students in a class and display the names of students who have scored above 75 ANNUAL EXAMINATION SYLLABUS (JUNE - FEBRUARY) 7 SUBJECT: I.T. (Code: 802) Communication Skills III MONTHS Communication Skills III Computer Organisation Self Management Skill III Practical File Networking And Internet Networking And Internet III Networking And Internet		Write a program to input the value of 'x' and 'n' and print the sum of the different series.		
Display the terms of a Fibonacci series. Compute the greatest common divisor and least common multiple of two integers. Count and display the number of vowels, consonants, uppercase, lowercase characters in string. Input a string and determine whether it is a palindrome or not; convert the case of characters in a string. PERIODIC TEST 2 SYLLABUS (PORTIONS FROM JUNE - NOVEMBER) Find the largest / smallest number in a list / tuple. Input a list of numbers and swap elements at the even location with the elements at the odd location. Input a list of numbers and find the smallest and largest number from the list. Create a dictionary with the roll number, name and marks of 'n 'students in a class and display the names of students who have scored above 75 MONTHS SUBJECT: LT. (Code: 802) MONTHS Communication Skills III Computer Organisation Self Management Skill III June, July, August Field Practical File Networking And Internet Networking And Internet Networking And Internet	September,	Determine whether a number is a perfect number, an armstrong number or a palindrome.		
Display the terms of a Fibonacci series. Compute the greatest common divisor and least common multiple of two integers. Count and display the number of vowels, consonants, uppercase, lowercase characters in string. Input a string and determine whether it is a palindrome or not; convert the case of characters in a string. PERIODIC TEST 2 SYLLABUS (PORTIONS FROM JUNE - NOVEMBER) Find the largest / smallest number in a list / tuple. Input a list of numbers and swap elements at the even location with the elements at the odd location. Input a list of numbers and find the smallest and largest number from the list.
